World Mission Month

Once again, it is time to work towards our goals for March World Mission Month. The activities we plan will be hard work and require a lot of prayer. The benefits will be unbelievable. As we work for the Lord, our efforts bring us joy, satisfaction and occasionally a victory over the losing team. The thing that we have to realize is that the results are the Father's. What we do here is only for His glory. Help us to work as never before.
